

YouTube video player interface showing a tutorial titled "How to Send Email using queue in laravel in urdu hindi". The video is from the channel "Programming Experience" (9.29K subscribers). The video player shows a code editor with PHP code for a search function in a table.

```
363 <script>
364     function searchTable()
365     {
366         var input, filter, table, tr, td, i, txtValue;
367         input = document.getElementById('search');
368         filter = input.value.toUpperCase();
369         table = document.getElementById('questionsTable');
370         tr = table.getElementsByTagName("tr");
371         for(i = 0; i < tr.length; i++){
372             td = tr[i].getElementsByTagName("td")[1];
373             if(td){
374                 txtValue = td.textContent || td.innerText;
375                 if(txtValue.toUpperCase().indexOf(filter) > -1){
376                     tr[i].style.display = "";
377                 }
378                 else{
379                     tr[i].style.display = "none";
380                 }
381             }
382         }
383     }
384 </script>
```

The video player interface includes a search bar, a play button, and a progress bar. The video is currently at 13:14 / 16:01. The video player also shows a list of related videos on the right side.
